

CAPABILITIES STATEMENT

COMPANY OVERVIEW

Westcott Distribution Inc. is a manufacturer of safety pumps which are used in manufacturing facilities, chemical rooms and laboratories. Founded in 2000, we operate from Milford, CT. GoatThroat Pumps are manufactured in CT with over 30,000 in use worldwide. They have a life expectancy of 6+ years.

Known in the industry as Beer Taps for Chemicals.

CAPABILITIES

- Prevents worker exposure to hazardous chemicals and vapors. Helps meet environmental, health and safety goals.
- Controlled delivery of chemicals prevents waste and conserves inventory. Upright container eliminates spills.
- Works with over 1400 chemicals including solvents, acids, flammable liquids and other corrosive chemicals.
- Meets NFPA 30 guidelines for equipment in use with flammable liquids.

COST SAVINGS

- Prevents costly chemical spills and associated cost of reporting and manufacturing downtime.
- Using bulk chemicals (55 G barrels) instead of 1 gallon containers can save up to \$2500 per month.
- RCRA empty barrels are less expensive at disposal and meet Government regulations.
- Prevents repetitive motion injuries and associated worker downtime.
- As a best management practice, reduces cost of worker compensation claims and other insurance costs.

DIFFERENTIATION

- We provide jobs for **Americans with Disabilities**
- **Innovative Technology** - GoatThroat Pumps won Product of the Year Awards in Fluid Handling for new products developed in 2002, 2006, 2010 and the Gold Award in 2016 from Plant Engineering
