Compressor Adapter Makes Fluid Delivery Even Easier

GoatThroat™ Pumps, long valued for their innovative design which delivers chemicals in an environmentally safe manner, bring another innovative advancement to the industrial marketplace.

Ensuring worker safety and environmental compliance has never been easier.

These small, versatile hand pumps can now safely be used with shop air, air compressors or bottled compressed air in the shop, in the field, in the lab, anywhere, anytime.

The **BillyGoat™** adapter features a quick connector, a regulator as well as an external pressure safety valve. The new setup delivers most chemicals at up to 4.5 gallons per minute with a working pressure of just 2PSI.

This revolutionary development will make it even easier to:

- Quickly and safely transfer chemicals, acids, caustics, soaps, solvents and other fluids
- Deliver fluids to locations from 5' - 60' away; Vertical lift of over 20' (at 6 PSI)
- Empty 15 - 55 gallon barrels completely
- Use our sprayer wand to apply disinfectant and cleaning agents.

GoatThroat™ Pumps are made from food grade/chemical grade components and are guaranteed.
