

# Chemical Safety Made Simple - Guaranteed

## Food & Beverage

- Sanitizers
- Oils
- Flavorings
- Vinegar

GT's closed system food-grade pumps are optimal for keeping products protected from foreign elements and contamination. They are produced with FDA-approved and compliant materials.

## Medical Devices & Pharma

- Alcohols
- Acetone
- Cleaners

In medical and pharma settings, many chemicals are flammable, so there can be no margin for error. GT pumps allow medical and pharmaceutical makers to create a safer environment that comply with EPA and OSHA regulations.

## Industrial

- Solvents
- Oils
- Degreasers
- Biocides

With a spill-proof and virtually emissions-free way to transfer liquids, GT pumps drain containers fully empty to EPA's RCRA empty standard. They are long-lasting, durable, and are ideal for manufacturing facilities that handle a wide variety of liquids.

## Cooling Towers

- Biocides
- Scale Inhibitors
- Algecides
- Dispersants

GT's unique technology help companies reduce hazmat incidents by preventing costly chemical spills and the associated cost of reporting and downtime. Our systems mitigate worker compensation claims by preventing workers exposure to hazardous chemicals.

## "Made in USA"

### GoatThroat Configuration Guide

*Get Just What You Need... Every Time*

Chemical Name \_\_\_\_\_

Flammable?  Yes  No

Viscosity  Thin  Medium  Thick

Container Size  Barrel  Can

Container Material  Plastic  Steel

Barrel Opening  2" Pipe  Thick Thread

Can Opening  Thick Thread  Flex Spout

How much do you pour? \_\_\_\_\_

How Often? \_\_\_\_\_

Do you want liquid delivery away from container?  Yes  No

Do you want the pneumatic option?  Yes  No

Are you filling small bottles?  Yes  No

# HAND-OPERATED PUMPS

## GOATTHROAT FOOD GRADE & GROUNDABLE PUMPS

GT300 Pump with Viton Seals Shown

RT300 Remote Tap with Viton Seals

### FEATURES

- GT pumps are food grade to meet FDA standards while SCP pumps are groundable and come with grounding and bonding wires for flammable liquids.
- Made of reinforced polypropylene and color coded to indicate the seal material, these systems are known to last for 10+ years even in constant contact with chemical. They are intended to remain on the container until it is empty.
- Available seals are Nitrile (Red: GT100, SCP.100), EPDM (Blue: GT200, SCP.200), Santoprene (Blue: GT200S, SCP.200S), and Viton™ (Green: GT300, SCP.300).
- Can be used by hand or as a pneumatic pump for larger volumes.
- Low pressure (< 4psig) does the work so you don't have to.
- One touch tap system stops flow immediately for precise volume delivery of liquids.
- Available in grounded and non-grounded configurations.
- Sealed system with container in the upright position stops VOCs which are wasted chemicals in the air and are unsafe for users.
- Provides RCRA empty barrels, with less than 1/2 inch or less left in the container for no more wasted chemical.
- Also available: Teflon-Kalrez seals in both standard and grounded configurations.

GoatThroat® Pumps eliminate spills and bring real cost savings to the table. The easy to use, hand operated pumps are ideal for a wide variety of applications and can be used with a wide variety of chemicals and fluids.

	Seals	Service	Common Applications	Standard		With Remote Tap*	
				Mfg. Part No.	Price	Mfg. Part No.	Price
	Nitrile	Food Grade	Petroleum Oils, Glycerine, Soy Sauce, Citric Acid	GT100	\$290.58	GT.RT.100	Call
	Nitrile	Flammable	MPK, Diacetone, Octadecane	SCP.100	\$469.74	SCP.100.RT.100	Call
	EPDM	Food Grade	SIMPLE GREEN, Sodium Hydroxide, Butyl Cellosolve	GT200	\$296.05	GT.RT.200	Call
	EPDM	Flammable	Allyl Alcohol, N-Methylpyrrolidone, Propylene Oxide	SCP.200	\$476.30	SCP.200.RT.200	Call
	Santoprene	Food Grade	Butyl Stereate, DEF, Acetates, Phosphates	GT200S	\$316.49	GT.RT.200S	Call
	Santoprene	Flammable	Acetone, MEK, Alcohols, N-Propyl Bromide	SCP.200S	\$491.59	SCP.200s.RT.200S	Call
	Viton	Food Grade	Sodium Hypochlorite, Phosphoric Acid, Sulphuric Acid, NOVEC Fluids	GT300	\$408.57	GT.RT.300	Call
	Viton	Flammable	Butyl Acetate, Xylene, Hexane, Ethyl Benzene	SCP.300	\$544.03	SCP.300.RT.300	Call

\* Hoses for remote taps are sold separately and are based on chemical compatibility.

## GOATTHROAT PUMP ACCESSORIES

### PNEUMATIC ADAPTERS

BGA Pneumatic adapters can be added to any GT or SCP pump for use with shop air, compressors, or bottled air or nitrogen and makes chemical delivery as simple as opening a tap.

Flow Rate	Mfg. Part No.	Pressure (PSI)		PRICE
		Input	Output	
4.5 gpm	BGA	100-160	1-160	\$232.69
3.0 gpm	BGA-3PSIG	100-160	3	\$264.37
4.5 gpm	BGA-5PSIG	100-160	5	\$264.37

### DISCHARGE TAPS & ADAPTERS

Remote taps, 12" Standoff's (shown at right) and variety adapters allow GoatThroat Pumps to be used with all types of containers.

Mfg. Part No	Description	Color	Price
RT100	Remote Tap, Nitrile Seals	Red/Black	\$110.00
RT200	Remote Tap, EPDM Seals	Blue/Black	\$110.00
RT200S	Remote Tap, Santoprene Seals	Blue/Black	\$116.00
RT300	Remote Tap, Viton Seals	Green/Black	\$138.00
BPR-T	57mm Buttress Drum Adapter	Yellow/Orange	\$ 54.00
BPR	63mm Buttress Drum Adapter	Green	\$ 54.00
50.12	12" Stand off	Translucent/white	\$ 58.00
226-101	38mm Flex Spout Pail Adapter	Black	\$102.00
226-102	40mm Flex Spout Pail Adapter	Black	\$102.00
226-200	63mm Pail Adapter	Black	\$102.00
226-265-19	38mm Glass Bottle Adapter	Black/SS Stand	\$260.00
